Atmos Slim 135R

Multiple sizes available

*1.5kW heater with low and high settings

Automatic shutdown timer function

Realistic logs

Enjoy with or without the heat

Remote control

Seven-day timer function

Options for inset, suite, multi-sided and media wall installations

Designed for simple plug and play installation

Ecodesign Compliant energy saving features

13 fuel bed lighting colours plus spectrum mode

Various flame combinations of yellow and orange

* 1.8kW heater for Atmos Versa

Designed for Simple Installation

With its easy slot-in installation, the Atmos is perfect for fitting into pre-made openings - ideal for media walls or fireplace suites. Its integrated frame neatly hides any plastering imperfections around the opening, ensuring a clean and professional finish.

Authentic Glowing Logs

FireFX electric fires feature realistic faux logs sat upon a bed of blackened glass media, mimicking the look of a real fire. For added authenticity, sections of the are semi-translucent, allowing the fire to glow through alongside the flame and fuel bed to recreate the aesthetic of a real log fire.

Atmos Slim
Log Effect

Ember bed up-lighting

Designed to bring the ember bed to life, FireFX electric fires feature an up-lighting system which illuminates the realistic log and ember effects from below, for a lifelike display. Choose from 13 varied colours or the ever-changing spectrum mode for your fuel bed lighting, providing everything from a vibrant hue to an authentic glow. Five brightness settings allow for a bright glow, subdued flicker, and everything in between.

Realistic flame effects

Enjoy five flame colour variations and five brightness settings, letting you experiment to find the perfect flame for your mood.

Enjoy with or without the heat

Want to enjoy your fire for its ambience alone? With the option to turn the heat function on or off, independently of the flames and ember bed lighting, you can enjoy the fire's stunning effects and ambience all year round.

Ecodesign & Zero Emissions

Using innovative energy saving features such as open window detection, all FireFX electric fires are compliant with stringent Ecodesign energy product standards. These fires deliver zero direct emissions, providing clean, efficient, and environmentally responsible warmth. When powered by renewable energy such as solar or wind, they offer an even greener way to enjoy comfort and ambience.
