MARBLE COLLECTION

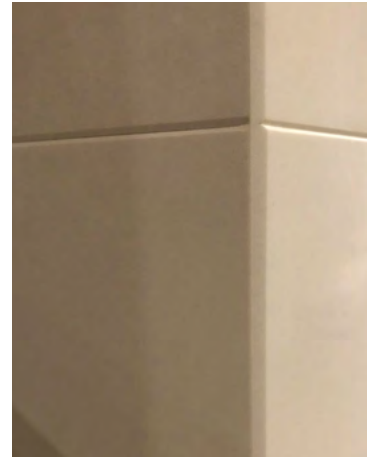

FIREPLACE DESIGNS TAILORED FOR YOU

# THE ULTIMATE CONCEPT IN FIREPLACE DESIGN

These are the most advanced marble suites available today. Produced using our new Seamless Jointing Method, means they appear to be made from solid blocks of marble.

Available in a choice of Micrograin marble colours with the addition of Quartz inlays as shown.

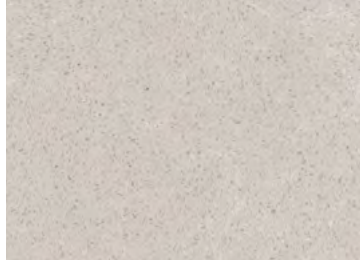

## AVAILABLE IN A CHOICE OF MICROGRAIN MARBLE COLOURS

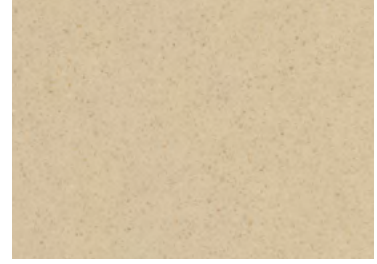

Blanco Perla

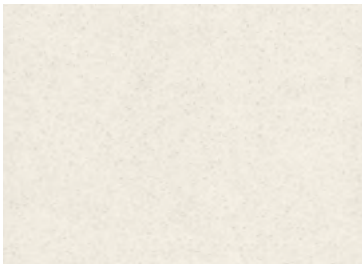

Giorgioni

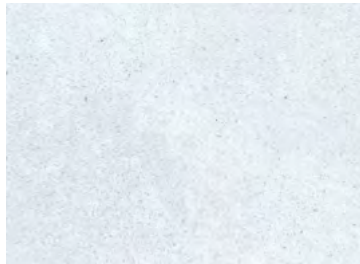

Marfil

Oriental White

Polar White

Roman Stone

Ice Flow

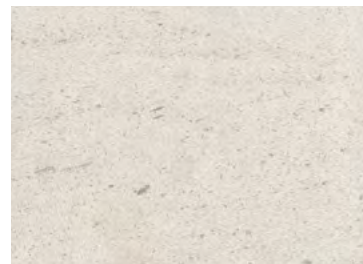

Vanilla

Limestone

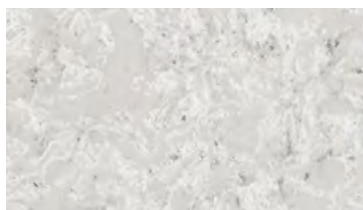

Some of our fireplace surrounds are also available in limestone.

## ADDITIONAL INLAYS (AVAILABLE ON SELECTED MODELS)

Irini (Quartz)

Giorgioni  
(micrograin marble)

# FIREPLACE DESIGNS TAILORED FOR YOU

With our select team of artisans and over 30 years of experience manufacturing marble and limestone fireplaces, we are offering a unique and specialised service to our customers.

For no extra cost or time, we are offering to supply bespoke surrounds to suit your requirements. From a simple hearth size increase to fit your carpet cut out, to altering the fire opening to accept electric and gas fires - simply forward your sizes with your order. The prices include any alterations to the surround, provided your measurements come within the parameters shown in the brochure.

## HOW DO WE DO THIS?

It has occurred to us that as each of our surrounds are made to order, it would be easy to allow our customers to order their surround to be made to their measurements. This is possible as we do not make our surrounds in bulk production lines, but make each one to order. We can now offer each surround to be made in a choice of colours and/or choice of band colours, all at the prices quoted. Why not take advantage of these remarkable offers and have your surround purpose made for your room, taking away any anxieties as to whether or not it will fit, by using our tailor made service.

## OPENINGS

### STANDARD CONVECTOR (SC)

The standard convector back panel is an industry standard opening of 16.5" w x 22.5" h

It can be tailor-made to suit any gas or electric fire.

### CHAMBER & STOVE (CH)

The slip inset is a matching band which follows the shape of the outer surround.

It can be tailor-made to suit customer openings and firebox chambers.

A comprehensive list of max. and min. dimensions are displayed throughout the catalogue.

### BIG SCREEN FIRE (BS)

All our surrounds can have a specially designed interior tailored to suit big screen gas or electric fires.

The appliance used must be smaller than the site openings listed throughout the catalogue.

# ELECTRIC SUITES

Elegant design for any home. Bring timeless elegance and modern convenience to your living space with our beautifully crafted Marble Electric Suites. Designed to complement any brand of electric fire, these suites offer a luxurious marble finish that enhances both traditional and contemporary interiors.

## FLAT WALL INSTALLATION

No chimney or recess required.  
Perfect for quick and hassle-free installation.

## VERSATILE COMPATIBILITY

The designs can be made to suit any brand of electric fire. You can embrace all the latest smart technology, allowing you to adjust the flame effects to suit your mood

## TIMELESS APPEAL

The luxurious marble finish adds sophistication to both new build and period homes

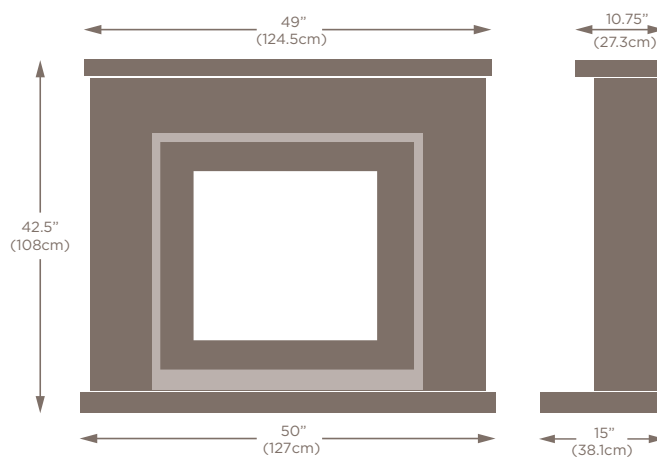

## LOW MAINTENANCE

Enjoy the cosy ambiance of a fire without the mess or up keep of a real fireplace. An ideal centrepiece for any Living Room, Dining area or Bedroom, these suites deliver warmth, style, and luxury, all in one stunning package.
