

Summer 2023

Introduction

The 'ApplePie' & 'PumpkinPie' range by Ekol.

Whether it be for a boat, yurt, glamping pod, shepherd's hut or just a compact fireplace, The ApplePie / PumpkinPie can be adapted and customised to suit. With its very low distance to combustibles this stove is ideal for small spaces.

With its individual styling and multiple cooking options including stainless cooktop, top baking oven, pan supports to one or both sides as well as griddle plate and pizza shelf inside, the ApplePie / PumpkinPie is the 'Swiss Army Knife' of wood burning stoves.

Amongst an elite handful of small-space stoves fully compliant with DEFRA and Ecodesign 2022 it can be used to burn wood anywhere in the UK.

With full cast iron construction and weighing in heavier than many stoves more than twice its size, it really is built to last.

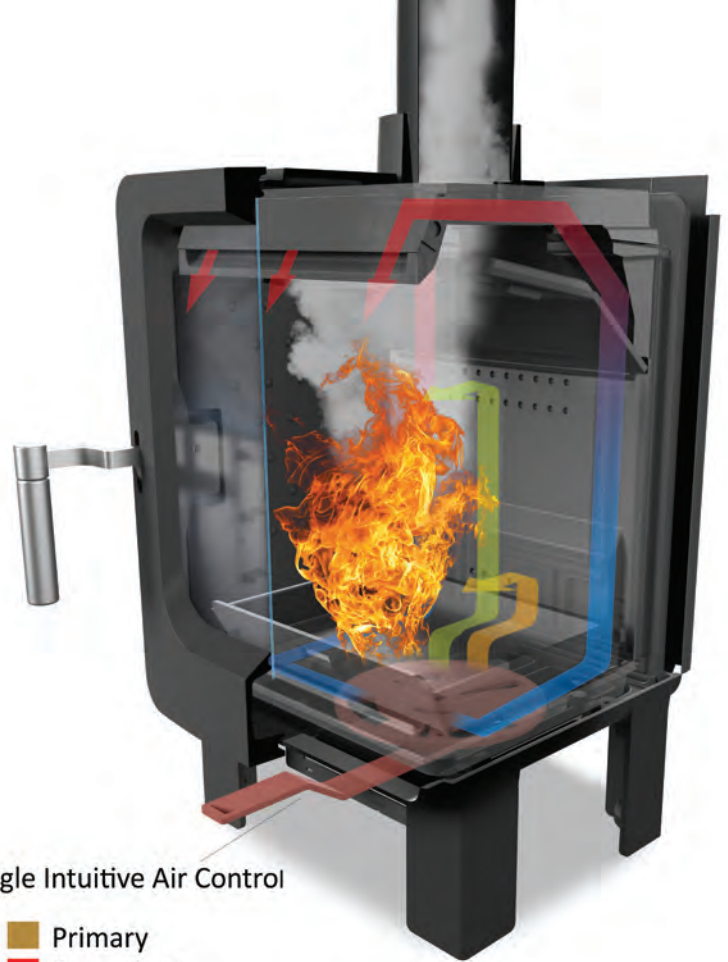

Primary, Secondary and Tertiary air are intuitively controlled by a single air control and with an extra large window, enthusiastic fire-starters and chefs can easily monitor their creations.

Baked Apple Stack

Technical Specification

- EcoDesign Ready
- 82% Efficient (ApplePie) 78.4% Efficient (PumpkinPie)

- Low Distance to Combustibles

Single Intuitive Air Control

- Primary
- Secondary
- Tertiary

Baked Pumpkin Stack

Inside or outside.

(we recommend shelter from direct rain)

Baked Apple

A cozy indoor scene featuring a wood-burning stove with a fire, a wooden table with a mug, a basket of yarn, and a chair. The stove is white with a black top and a glass door showing a bright fire. The table is made of light-colored wood and holds a brown ceramic mug, a wicker basket filled with colorful yarn and knitting needles, and a spool of white twine. A wooden chair with a curved back is in the foreground. The background is a rustic stone wall.

Cooking, Heating or both.

Versatility as Standard.

- Metallic Black
(standard)
- Charcoal
- Light Grey
- Metallic Blue
- Patriot Blue
- Almond
- Mojave Red
- Apple Green
- Green Illusion
- Burnished
(Door Only)
- copper

Top Oven

(Available for Both ApplePie and PumpkinPie)

- Ideal for cooking, baking and warming food.
- Adjustable shelf height to allow for various size pots and baking trays.
- Reaches temperatures in excess of 200 °C
- Includes both Brushed Stainless Steel and hardwood Handles
- Optional body and door colours available.

'Removable' Large Oven

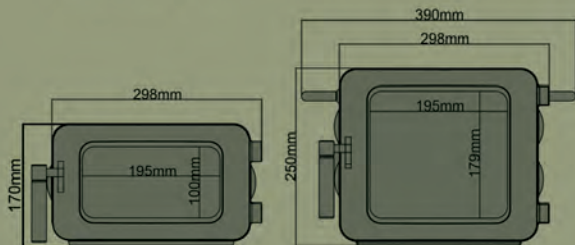

(Available for ApplePie only)

Optional taller oven available (for the ApplePie stove only)

This handy oven is not only taller than the standard ApplePie oven but removable thanks to its lifting handles. No bolts required to fix in place, this oven locks over the edge of the cookplate below to create a secure fit, making it easier to access the plate below for boiling kettles and stove top cooking if required.

ApplePie Distance to Combustibles

SINGLE WALL FLUE
Rear Flue Configuration
Back Wall: 250mm
Side Wall: 350mm

(210 mm from back of stove to wall
when used without Vertical Rear Flue Adaptor)

* Distances from flue to wall need separate consideration
based on local regulations and flue designation

TWIN WALL FLUE
Rear Flue Configuration
Back Wall: 50mm
Side Wall: 300mm

(100 mm from back of stove to wall
when used without Vertical Rear Flue Adaptor)

TWIN WALL FLUE
Corner Configuration
Left Side Wall: 150mm
Right Side Wall: 150mm

(Observe same distances when using
top outlet and twinwall)

Distances can be reduced further with adjacent shielding on the wall. (Contact us for details)

Additional Notes

Thank you for taking the time to consider an Ekol Stove. We understand that choosing the right stove can be an important decision.

If you would like any guidance at all, please contact either your local Ekol specialist or you are more than welcome to contact us directly for any information or support.

Your new Ekol ApplePie / PumpkinPie will come with 10 years body warranty for peace of mind, and technical support forever should you need it.

The ApplePie range of options will continue to expand - if there is a variation or design option you would like but cannot see in the brochure, you can contact us or take a look at the website for new design options as they emerge.
